

Civil Engineer Project Manager

Newport Beach, CA

Full Time | 5-10 years experience

Commercial Development Resources is looking for a Project Manager. We are seeking a bright, positive self-starting, dependable, and highly professional leader with a team player attitude. The ideal candidate will also possess the same passion for land development as we do!

CDR is a development partner that provides solutions to our clients in the form of civil engineering, surveying, construction management, and entitlement services. Along with our passion for land development, company culture is also essential. Please visit our website www.cdrwest.com for more information on our corporate mission and unique company culture.

Responsibilities:

- Lead a team of designers while communicating the needs of the client and company efficiently
- Manage projects
(ie: shopping centers, auto dealerships, gas stations, amusement parks and QSR development)
- Establish and oversee design criteria while following general design standards
- Lead with an efficient and effective problem-solving management style
- Establish project parameters that ensure prompt and quality plans
- Work directly with Principal to produce accurate and competitive proposals

Requirements:

- Bachelor of Science in civil engineering
- Licensed Professional Engineer in the state of California
- Expert in AutoCad / Civil 3D
- Excellent ability to prepare grading plans, utility plans and site plans
- Exceptional leadership and interpersonal skills
- Meets demanding deadlines
- 5-10 years experience in land development

If this sounds like you - reach out to Meghan Meek at mmeek@cdrwest.com!
