Experience the Thrill: Client Victories & Unforgettable Team Adventures

Hello,

In this edition of our quarterly newsletter, we are proud to share a few stories that illuminate the brilliance of our team members, highlight the success of one of our valuable clients, and showcase the camaraderie fostered during our annual team-building expedition.

Join us in applauding the exceptional contributions of [Luke Russell, P.E.](#), a key pillar of our engineering team. Luke's innovative approach and commitment have significantly shaped our recent successes. We invite you to learn more about Luke's journey, his vision for excellence, and the valuable impact he has made within our Commercial Development Resources family.

Building on the foundation of individual excellence, we invite you to explore a compelling case study that exemplifies our collaborative strength and engineering expertise, as reflected in the success story of our recent project with [Woodland Hills Porsche](#). This case study showcases our ability to adapt quickly to overcome engineering challenges, deliver strategic solutions, and achieve measurable results.

In the spirit of fostering strong partnerships, take a moment to relive some of the fun memories we made during this year's [annual team-building adventure](#) at Point Reyes National Park. Beyond the breathtaking landscapes and our team's "polar plunge," this expedition was a celebration of teamwork and shared experiences. We believe that the bonds forged during this trip will continue to enhance our collaborative efforts and, ultimately, benefit the projects we undertake together.

As we take pride in our team's engineering expertise, celebrate client successes, and cherish the enduring bonds within our community, we express our heartfelt gratitude for the trust you place in CDR. Your continued partnership drives us forward, inspiring us to attain greater heights in engineering excellence.

As always, please [reach out](#) with any of your civil engineering needs.

Regards,

Aaron M. Albertson, P.E., SCDP
